

WELCOME TO FOURTH GRADE

We are so excited to start the school year with you and your child! Please check out what they could look forward to learning in fourth grade.

Reading and Writing

- By the end of fourth grade, your child should be able to read silently most of the time
- Make personal connections between the stories and texts they read
- Write narrative, informational, and persuasive five paragraph essays

Mathematics

- Add, subtract, multiply and divide multi-digit numbers
- Recognize the relationships between fractions and decimals
- Determine perimeter and area with unit squares
- Use coins and bills to purchase items and make change
- Predict and determine all possible combinations and outcomes
- Identify, compare, and classify shapes based on properties and angles
- Explain how they solved a math problem on their own.

Social Studies

- Apply the five themes of geography: location, movement, place, region, and interaction to Pennsylvania and its people
- Examine the importance of the role of ethnic groups and the multiple roles they have played in the development of Pennsylvania

- Trace the history of colonization in Pennsylvania
- Understand the state's social, economic, and political institutions and how they respond to the needs of Pennsylvanians.

Science

- Develop skills that will emphasize the five senses while doing science
- Compare results from data collected, create graphs, and make predictions and conclusions
- Build an understanding of how waves, wind, water, and ice shape and reshape the Earth's land surface
- Understand basic concepts of magnetism and electricity
- Explain the life cycles of various plants and animals
- Conduct hands-on investigations to discover and understand the world

****Students **MUST** have their multiplication and division facts memorized **BEFORE** entering fourth grade. ***

Students can do this by practicing with flash cards or apps on their phones during the summer.
